#### Update From The Board Audit Committee Chair

Pursuant to Board Policy BDB(LOCAL), *Board Internal Organization: Board Committees*, the Houston Independent School District (HISD) Board Audit Committee chair presents to the board an update on the work and progress of the committee.

A copy of the update is attached.

# Audit Committee Report

## March 2024

The Audit Committee is comprised of 3 members: Adam Rivon, Ric Campo, and Janette Garza Lindner as Chair.

- The committee has met 3 times this school year: Sep. 6, Oct. 30, and Jan. 30.
- In 2023 there was a transition to an external Internal Auditing firm, RSM, which the previous board selected and approved in Apr. 2023.
- RSM's work includes conducting a list of audits prioritized before their engagement with HISD, conducting a risk assessment to support internal audit plans for 2024–2025, and providing other relevant services as requested by the board.
- Financial audit work included the *Comprehensive Annual Financial Report* presented to the committee and approved by the board in Nov. 2023.
- The committee recommended the revisions to Board Policy CFC(LOCAL) that were presented to the board in February's board meeting.
  - These revisions include simplification such as the removal of wording that is otherwise addressed in CFC(LEGAL) and therefore redundant (e.g., Annual Audit).
  - Other revisions allow the board to choose an internal or external auditor.
- Upcoming work includes:
  - Rewriting the *Audit Committee Charter*, which will be presented to the board in an upcoming meeting.
  - Reviewing the proposed *Internal Audit Plan* for 2024–2025.

Acceptance Of Board Monitoring Update: Presentation Of Goal 1 Progress Measure 1.2 and Goal 2 Progress Measure 2.2

The Houston Independent School District (HISD) exists to strengthen the social and economic foundation of Houston by assuring its youth the highest-quality elementary and secondary education available anywhere.

In accordance with the Texas Education Agency (TEA) Lone Star Governance continuous improvement model and the Framework for School Board Development, the HISD School Board monitors progress towards the district's goals and compliance with certain goals and constraints.

Attached to this update is a report regarding goals and goal progress measures (GPMs). The following measures have new data this month:

**Goal 1:** The percentage of grade 3 students in HISD earning Meets Grade Level on the State of Texas Assessments of Academic Readiness (STAAR) reading test will increase from 41 percent in June 2023 to 56 percent in June 2028.

**Goal Progress Measure 1.2:** The percentage of grade 3 students attending New Education System (NES) or NES-aligned (NESA) campuses projected at Meets Grade Level in reading on NWEA Measures of Academic Progress (MAP) will increase from 18 percent in September 2023 to 38 percent in May 2028.

**Goal 2:** The percentage of grade 3 students in HISD earning Meets Grade Level on the STAAR math test will increase from 38 percent in June 2023 to 53 percent in June 2028.

**Goal Progress Measure 2.2:** The percentage of grade 3 students attending NES or NESA campuses projected at Meets Grade Level on NWEA MAP in math will increase from 12 percent in September 2023 to 32 percent in May 2028.

## March 2024 Goal Progress Monitoring Report—Goal Progress Measure 1.2 & 2.2

### Goal 1

The percent of 3<sup>rd</sup> grade students in Houston ISD earning Meets Grade Level on the STAAR reading test will increase from 41% in June 2023 to 56% in June 2028.

### Goal Progress Measure 1.2

The percentage of 3<sup>rd</sup> graders attending an NES or NES-A campuses projected at Meets Grade Level in reading on NWEA MAP will increase from 24% in May 2024 to 44% in May 2028.

#### BACKGROUND

In the 2023–24 school year, the district introduced the NWEA MAP as an interim assessment to monitor student proficiency and performance. This assessment offers a projected proficiency level tied to the State of Texas' STAAR assessments. Its purpose is to assist teachers in better serving our students.

Since this marks the first time the district has employed the NWEA MAP, the Beginning-of-Year (BOY) data, with a baseline of 18%, has been used to establish performance targets for the End-of-Year (EOY) assessments over a five-year period. Currently, Middle-of-Year (MOY) data projected that 22% of the district's third-grade students at NES/A schools are at or above the Meets Grade Level standard, as defined by the state. The district estimates that 24% of 3<sup>rd</sup> grade students at NES/A schools will score at or above meets grade level standard at End-of-Year (EOY), 2023-2024.

In alignment with Goal 1, the district aims to achieve a minimum growth of 20 percentage points during this time frame. This growth target is set to meet the community's vision for Houston ISD.

### SUPERINTENDENT EVALUATION OF PERFORMANCE

- It is first important to note that this year marks the first time the District has administered the NWEA MAP assessments district-wide. The District is establishing baseline data and one is cautioned against drawing too many conclusions based on this first year. Once we take the NWEA MAP assessments in May 2024, we will be able to establish our EOY baseline for reading. Right now we estimate that it will be 24%. It is difficult, too, to correlate STAAR reading proficiency with NWEA MAP scores until we have more district-wide NWEA MAP assessment data over at least a couple of years.
- Overall, the NWEA MAP data is positive, but one data set does not represent a trend. Additionally, the entire system is learning how to administer the assessment and to analyze its results for schools and teachers. As the District administers the NWEA MAP assessments over time, it will be able to draw more conclusions around teacher performance and student proficiency.
- Still, a review of the mid-year NWEA MAP data suggests that our students had better than average growth relative to other students who take the NWEA MAP assessment, but that our reading proficiency is lower. In that regard, these data are not surprising as we know from the STAAR exams that our reading proficiency is low.
- Because our starting point – students meeting grade level for reading – is so low, the data also suggest that we lose ground over the summer and as the District’s 3<sup>rd</sup>-graders have still not recovered from the COVID learning loss, the lost learning is compounded. The positive news though is that every subgroup saw growth in the middle-of-year 3<sup>rd</sup>-grade reading assessment.

## March 2024 Goal Progress Monitoring Report—Goal Progress Measure 1.2 & 2.2

### Root Cause Analysis

In third grade reading, NWEA MAP assesses a student's proficiency in reading comprehension and in many of the core TEKS (Texas Essential Knowledge and Skills). As the assessment reveals our overall low proficiency in reading, the root causes are similar to those outlined in the first progress monitoring report when we reported on the Beginning-of-Year (BOY) NWEA MAP data.

There are two root causes for our students' low proficiency in reading:

#### **1. Science of Reading Curriculum**

The research is clear now that students who are learning to read need to learn how to decode. Also, students need language comprehension skills. The District began to assess and upgrade its reading curriculum in the 2022-2023 school year by piloting Amplify, a science-of-reading curriculum, in 6 schools. Most of the District's schools were not being intentional about ensuring students received strong science-of-reading curriculum. While we have improved curricular materials in our schools this first semester, we still need to ensure the use and internalization of high-quality instructional materials throughout the District and over the next several years.

#### **2. The Quality of Instruction**

A strong curriculum is necessary, but it is insufficient. Teachers need to implement the curriculum effectively and provide high quality instruction. After thousands of observations by school leaders this year, the overall quality of instruction needs to be improved across the board, including in the early grades. We have seen a continual improvement in the quality of instruction over the first semester, but it is still at a "progressing" level.

**There may be one other root cause: access to high-quality Pre-K.** Our students' ability to read at grade level on the NWEA MAP assessments and the STAAR exams begin in Pre-K and the early grades. If we assumed that the number of kindergarten students are approximately the same as the number of students who could enroll in Pre-K3 and who could enroll in Pre-K4, then 24 % of HISD's three-year-olds enroll in Pre-K3 and 70% of four-year-olds enroll in Pre-K4. We know that 23% of White students enroll in Pre-K4, while 78% of Black students enroll in Pre-K4 and 78% of Hispanic students enroll in Pre-K4. Still, our students of color have lower literacy skills than their White or more affluent peers. However, we need more information about the quality of the Pre-K classes and lessons and also the quality of the non-District, Pre-K schools our White students are attending.

*(Data based on current enrollment as of 12/19/23)*

## March 2024 Goal Progress Monitoring Report—Goal Progress Measure 1.2 & 2.2

### Supplemental Data:

While increasing overall reading proficiency is the goal, our students' growth in proficiency is a leading indicator and provides evidence of improvements in the quality of instruction and the efficacy of our strategies to improve reading. If our elementary students grow more than average year after year, they will also improve their overall proficiency relative to students in other districts.

### **Goal Progress Measure 1.2 Action Steps:**

While the leadership team's arrival in the summer did not allow time for more comprehensive changes, many steps have already been taken to improve third-grade reading. Most significantly, HISD has:

- Expanded the Amplify curriculum to the 85 NES/A schools and 108 other schools.
- Implemented an additional "Science of Reading" course in grades 2 through 6 in all elementary and middle NES/A schools.
- Began implementation of DIBELS assessments in all elementary schools.
- Focused professional development on the improvement of the quality of instruction.
- Improved the quality of instruction significantly.
- Lowered the class size in Pre-K in the NES/A schools to 15 to 1.
- Added teacher assistants to the NES/A Pre-K classrooms.
- Expanded the number of Pre-K seats by 790 since the beginning of the year.
- Improved processes to expand access to Pre-K seats.

For the **2024-2025** school year, HISD will:

- **Science of Reading**
  - Ensure all elementary and middle schools that have a C, D, or F rating are using an approved "science of reading" curriculum and provide lesson-planning support.
  - Provide professional development to all elementary and middle schools to use the curriculum effectively.
  - Expand the number of NES schools and provide "science of reading" courses in those new elementary and middle schools.
  - Prepare non-NES schools for transition to science of reading curriculum in the 2025-2026 school year.
  - Train all elementary reading or ELA teachers in grades K through 4 on how to conduct DIBELS assessments and how to progress monitor with DIBELS.
- **Quality of Instruction**
  - Continue to provide strong professional development around improving the quality of instruction.
  - Conduct mandatory PD on literacy for all elementary reading or ELA teachers (Pre-K through 5).
  - Provide strong lesson-planning and curricular supports for all teachers across the District.
  - Create a Pre-K instructional support team to help principals improve the quality of instruction in the Pre-K classrooms of the NES schools.
- **Pre-K Access**
  - Maintain low student to adult ratio in the NES Pre-K classes and Early Childhood Centers by adding more teacher assistants.
  - Expand the number of Pre-K students by 500 by August 2024 and by another 300 by August 2025.

## March 2024 Goal Progress Monitoring Report—Goal Progress Measure 1.2 & 2.2

### Goal 2

The percent of 3<sup>rd</sup> grade students in Houston ISD earning Meets Grade Level on the STAAR math test will increase from 38% in June 2023 to 53% in June 2028.

### Goal Progress Measure 2.2

The percentage of 3<sup>rd</sup> grade students attending an NES or NES-A campuses projected at Meets GL on NWEA MAP in math will increase from 24% in May 2024 to 44% in May 2028.

#### BACKGROUND

Mirroring Goal 1, the district is also using NWEA MAP to progress monitor the second board goal in math.

According to the Beginning-of-Year (BOY) data, it is projected that 12% of the district's third-grade students are at or above the Meets Grade Level standard at NES/A campuses, as defined by the state. Currently, Middle-of-Year (MOY) data projected that 21% of the district's third-grade students at NES/A campuses are at or above the Meets Grade Level standard, as defined by the state. The district estimates that 24% of 3<sup>rd</sup> grade students at NES/A schools will score at or above meets grade level standard at End-of-Year (EOY), 2023-2024.

In alignment with Goal 2, the district aims to achieve a minimum growth of 20 percentage points during this time frame. This growth target is set to meet the community's vision for Houston ISD.

### SUPERINTENDENT EVALUATION OF PERFORMANCE

- Description of Data**

Similar to the NWEA MAP reading data, the math data reflect the low proficiency of our students in math. The Middle-of-Year (MOY) elementary math data shows only 21% of the students being on-track to meet proficiency targets. Our pre-COVID math scores on STAAR were low, and we have not returned to that low level. [Keep in mind the earlier admonition to use comparison data with caution until we have a couple of years of data.]

The data for *Third Grade Meets Grade Level in Math* also shows a large achievement gap between our Black and White students (18% meets grade level for Black students and 64% meets grade level for White students). A similar gap in math proficiency exists between Black students in the NES/A schools (15%) and their White peers in Non-NES schools (66%). Similar gaps exist between Hispanic students (25%) and White students (64%) and between Hispanic students in NES/A schools (24%) and White students in Non-NES schools (66%).

These data confirm that the District needed to apply more resources to the NES/A schools and use an instructional model geared toward helping students narrow achievement gaps.

And again, some positive news from the NWEA MOY assessments is that there was significant growth from the beginning of the year in the percentage of students meeting grade level.

- Root Cause Analysis**

In the case of third-grade math there are two root causes for our students' low proficiency over many years:

## March 2024 Goal Progress Monitoring Report—Goal Progress Measure 1.2 & 2.2

- **High-quality instructional materials**

The movement in the state and country around high-quality instructional materials is warranted. The schools in HISD have had a great deal of autonomy without accountability for raising student achievement. There are dozens of different math curricula in the District and not all of them are rigorous or aligned with the Texas Essential Knowledge and Skills. The District only began to pilot TEA-approved math curricula in the 2022-2023 school year.

- **The Quality of Instruction**

The quality of instruction is the leading indicator of overall academic achievement, but there has been very little attention paid to the quality of instruction within HISD in the past. Judging by thousands of spot observations, our instruction in math needs significant improvement.

### **Supplemental Data:**

The CIRCLE assessment for Pre-K3 and Pre-K4 will help inform teachers' understanding of early math proficiency. The data provide progress monitoring metrics that will enable teachers and schools to adjust instruction and supports to help accomplish Goal Progress Measure 2.2. An analysis of the NWEA MAP math assessments in grades 3 through 8 will also provide information about the District's system of supports to improve the quality of instruction and to provide high-quality instructional materials. These systems impact the two root causes for third grade NWEA math scores and thus will impact Goal Progress Measure 2.2.

We provide the following supplemental data:

- 3<sup>rd</sup> grade math Met Expected Growth by student group (NWEA MAP)
- 3<sup>rd</sup> grade math Met Expected Growth by NES, NES-A, and Non-NES (NWEA MAP)

### **Goal Progress Measure 2.2 Action Steps:**

While the leadership team's arrival in the summer did not allow time for more comprehensive changes, many steps have already been taken to improve third-grade math. Most significantly, HISD has:

- Created curriculum maps that are more tightly aligned with the Texas Essential Knowledge and Skills in math.
- Expanded the Eureka and Carnegie math curricula to the 85 NES/A schools and 117 other schools.
- Designed highly differentiated math lessons for use in the 85 NES/A schools; these lessons are also focused on math concepts, story problems, and real-world scenarios.
- Focused professional development on the improvement of the quality of instruction.
- Improved the quality of instruction significantly.

For the **2024-2025** school year, HISD will:

- **High-quality instructional materials**
  - Ensure all F, D, and C-rated campuses are using an approved math curriculum that qualifies as HQIM.
  - Provide professional development to all F, D, and C-rated campuses to use the curriculum effectively.
  - Expand the number of NES schools and provide HQIM to those new schools.
  - Prepare non-NES schools for transition to HQIM in the 2025-2026 school year.
- **Quality of Instruction**
  - Provide aligned curriculum maps to all math teachers across the District.
  - Continue to provide strong professional development around improving the quality of instruction.

## Consideration And Approval Of Teach For America Contract For The 2024-2025, 2025-2026, And 2026-2027 School Years

In its mission statement, Teach for America (TFA) states that it “finds, develops, and supports equity-oriented leaders - individually and in teams - so they can transform education and expand opportunity with children, starting in the classroom.” TFA recruits outstanding recent college graduates from all backgrounds and career interests to commit to teach for two years in urban and rural public schools. TFA envisions a world where educators, policymakers, parents, and students are working together to ensure that their communities’ children have the foundation they need to learn, lead, thrive, and shape a better future for themselves and all of us. Beyond the two-year commitment in the classroom, TFA alumni bring strong leadership to all levels of school systems and every professional sector, addressing the extra challenges facing children growing up in low-income communities, building the capacity of schools and districts, and changing the prevailing ideology through their examples and advocacy.

TFA has placed corps members in Houston Independent School District (HISD) schools since 1991 and HISD is seeking approval to renew the partnership with TFA for the pre-service (summer) training and staffing of up to 200 TFA corps members for the 2024-2025, 2025-2026, and 2026-2027 school years. The annual premium rate for corps members is \$5,000 for teachers as defined by the agreement.

The amount indicated in this request is an estimate of the total premium cost of all corps members to be paid for by Human Resources annually. As the actual number of corps members and their content areas has not yet been determined, this serves as a maximum estimated amount only at the time of this item. There is no cost to the district if corps members are not selected for hire.

The order and the certificate for order approving the defeasance of up to \$110,000,000 in principal amount of the outstanding bonds and related provisions relating thereto are attached.

## Authorization To Approve State Board Of Education Adopted Instructional Materials Under Proclamation 2024

The Houston Independent School District (HISD) seeks approval from the School Board for the superintendent or a designated representative to have the authority to select instructional materials from the full list of State Board of Education (SBOE) approved titles under Proclamation 2024. This request is made with the intention to align these materials with the Texas Essential Knowledge and Skills (TEKS) and to ensure flexibility in the selection process. This flexibility is crucial as it allows HISD to adapt to changes in educational requirements, such as those introduced by Texas House Bill (HB) 1605, enabling the district to choose materials that best fit the evolving needs of both New Education System (NES) model campuses and non-NES campuses.

By approving the selection from all SBOE-approved titles, HISD gains the ability to tailor instructional resources to better serve the district's diverse student population, ensuring that it can continually update and optimize curriculum to reflect the best educational practices and standards. This approach provides the district with the agility to respond to new educational challenges and opportunities, ensuring that students have access to the most effective, engaging, and relevant learning materials over the next eight years and beyond.

This strategic approach underscores HISD's commitment to maintaining high educational standards while addressing the specific needs of the community, supporting the goal of enhancing learning experiences and academic achievement for all students across the district.

### COST/FUNDING SOURCE(S):

These resources will be funded using the Texas Education Agency (TEA) Instructional Materials and Technology Allotment (IMTA) and by the HISD Office of College, Career, and Military Readiness. The total cost will not exceed \$33,700,000 (the TEA IMTA biennium textbook allotment).
